

Design – Simplicity – Safety

**COMPLETE
FLOOR SYSTEM**

The Basis for your booth!

100% committed to the technical aspects and what YOU need!

The floor is the largest space from your booth area. Make it spectacular.

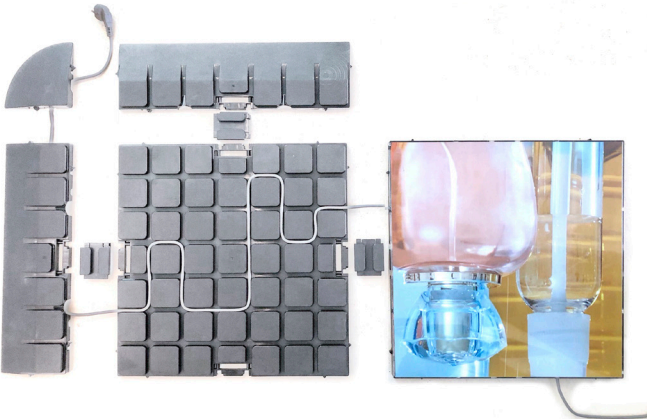

Create from your expo floor an advertising or give it an amazing photo design.

This is an extra marketing tool! Place an electricity spot wherever you like.

Hide your cables into the floor in seconds.

Adhesive tape is not necessary anymore to fix your cables and carpet tiles.

Do not spend your (expensive) time to clean carpet tiles, cables and floors from the sticky tape residues after your event.

Technical highlights

- ✓ Lightweight increased floor,
- ✓ Easy to install, without tools,
- ✓ Connect the tiles at the top, self-levelling,
- ✓ Hiding your electricity cables,
